Assembly

1. Attach the casters to the base assembly with the M8-1.25 x 20 hex bolts, hex nuts, flat washers and lock washers, as shown in **Figure 2**. Both braking casters should be installed at the same end of the cart, as shown in **Figure 1**.
2. Slide the tubular ends of the cart sides into the support sockets located on the cart assembly, and fasten with the M8-1.25 x 40 hex bolts and fender washers as shown in **Figure 2**.
3. If you have difficulty moving your cart, check to see if the casters are locked in the horizontal "brake" position. Simply move the brake into the diagonal "free" position (**Figure 3**) to restore movement to the caster.
