

MODEL H7806 LOG STORAGE SYSTEM INSTRUCTION SHEET

Introduction

This Log Storage System (**Figure 1**) features a wrought iron frame with a decorative nickel finish, and a durable black canvas tote. The canvas tote is removable for hauling wood from the pile to the fire.

Inventory (Figure 2)

A.	Frame Sections	2
B.	Center Rod	1
C.	Storage Tote.....	1
D.	Hex Bolts M10-1.5 x 25.....	2

Assembly

1. Align the screw holes on both frame sections.
2. Insert the center rod between the holes and secure it using the hex bolts.
3. Place the tote in the frame and secure it by placing a small tote loop over each frame handle.

If you need additional help with this assembly, call Technical Support at: (570) 546-9663.
