## A "Cool" New Look for Grizzly's Hottest Machines!

Chill out this summer with Grizzly Industrial's new "Polar Bear Series" woodworking machines. Available in July 2010, these new machines will have a dazzling white color with special Polar Bear badging, the same quality, features, and warranty as their green counterparts, and an introductory price that won't deep-freeze the budget.

"This new line is really about variety and choices," says Grizzly's President, Shiraz Balolia. "We already offer the most woodworking machines in the world under the same brand. The Polar Bear Series takes this to a new level by giving customers a whole new color option."

To see the full line of Polar Bear Series machines and their specifications, visit [www.grizzly.com](http://www.grizzly.com). Or call 1-800-523-4777 for a summer sale catalog if you are not already an existing Grizzly customer.
