

## MATERIAL SAFETY DATA SHEET

<b>1.</b>	<b>Company Identification and Chemical Product</b>	Woodstock International Inc . 360-734-3482. P.O.Box 2027,Bellingham, WA 98227. Natural rubber-Poly Isoprene
<b>2.</b>	<b>Composition / Information on Ingredients</b>	
	<b>(a)</b> Ingredients	No ingredients are added.
	<b>(b)</b> Composition	Natural rubber (major)
	<b>(c)</b> Composition %	<b>Weight (%)</b>
		Natural Rubber 98.55
		Ash 0.45
		Volatile matter 0.50
		Nitrogen 0.45
		Foreign matter 0.05
	<b>(d)</b> CAS No	<b>90003-31-0</b>
<b>3.</b>	<b>Hazards Identification</b>	<b>Health:</b> The product contains no hazardous substances . <b>Fire:</b> The product burns and does not emit any toxic gasses <b>Environment:</b> The product is not considered dangerous for the environment.
<b>4</b>	<b>First Aid Measures for contact</b>	
	<b>Eye Contact</b>	No specific measures are needed.
	<b>Skin Contact</b>	Wash skin thoroughly.
	<b>Inhalation</b>	Not possible.
	<b>Ingestion</b>	No specific measures are needed.
<b>5</b>	<b>Fire Fighting and Explosion Measures</b>	The product burned producing high smoke. <b>Fire extinguishing media:</b> water spray, foam or carbon dioxide. No explosive hazards.
<b>6</b>	<b>Accidental Release Measures</b>	No accidental release measures are required. If molten rubber contacts with skin, wash off with cool water or worm water.
<b>7</b>	<b>Handling and Storage</b>	<b>Handling:</b> avoid exposure to moisture, heat and direct UV rays as it becomes sticky. Exposure to heavy metals causes to degrade rubber faster. During processing and-thermal treatment, provide adequate ventilation since small amount of volatile hydrocarbon may be released <b>Storage:</b> Store in a cool and dry place with proper

		ventilation but no exposure to direct sun light. Avoid damp places as this absorbs moisture and possibility of growing fungus on the rubber.
<b>8</b>	<b>Exposure Controls and Personal Protection</b>	No special exposure controls are needed for personnel protection.
<b>9</b>	<b>Physical and Chemical Properties</b>	
	<b>(a) Physical State/Form</b>	Rubbery/flexible solid blocks.
	<b>(b) Color</b>	Light yellowish to honey color.
	<b>(c) Odor</b>	No distinct odor.
	<b>(d) Boiling Point</b>	Not applicable.
	<b>(e) Melting Point</b>	Natural rubber does not crystallize to a greater extent. However, for available NR crystallites Melting temperature is 298 -323 K.
	<b>(f) Solubility in Water</b>	Insoluble.
	<b>(g) Vapor Pressure</b>	Not applicable.
	<b>(h) Specific Gravity</b>	0.93
<b>10</b>	<b>Stability and Reactivity</b>	The product is generally stable but the viscosity tends to increase during storage. Oxidize at high temperature and when espouse to UV radiation. Metal ion contamination catalyses the oxidation process. Unstable to fire. Easily inflammable. Keep away from excessive heat and flames.
<b>11</b>	<b>Toxicological Information</b>	This product is considered non-toxic for human health.
<b>12</b>	<b>Ecological Effects</b>	This product is considered not dangerous for the environment
<b>13</b>	<b>Disposal Consideration</b>	Rubber products made out of Natural rubber can be recycled to be used in low quality Rubber products. Incineration under controlled conditions can be recommended.
<b>14</b>	<b>Transport Information</b>	Standard transport by container/ pallets.
<b>15</b>	<b>Regulatory Information</b>	No regulatory restrictions/ Green book standards.
<b>16</b>	<b>Other Information, including date of preparation</b>	Could contact manufacturer/supplier for further information .
