

G1079 STAND & TABLE ELEVATION

This exploded view diagram illustrates the assembly of the G1079 Stand & Table Elevation. The diagram shows the following components and their assembly sequence:

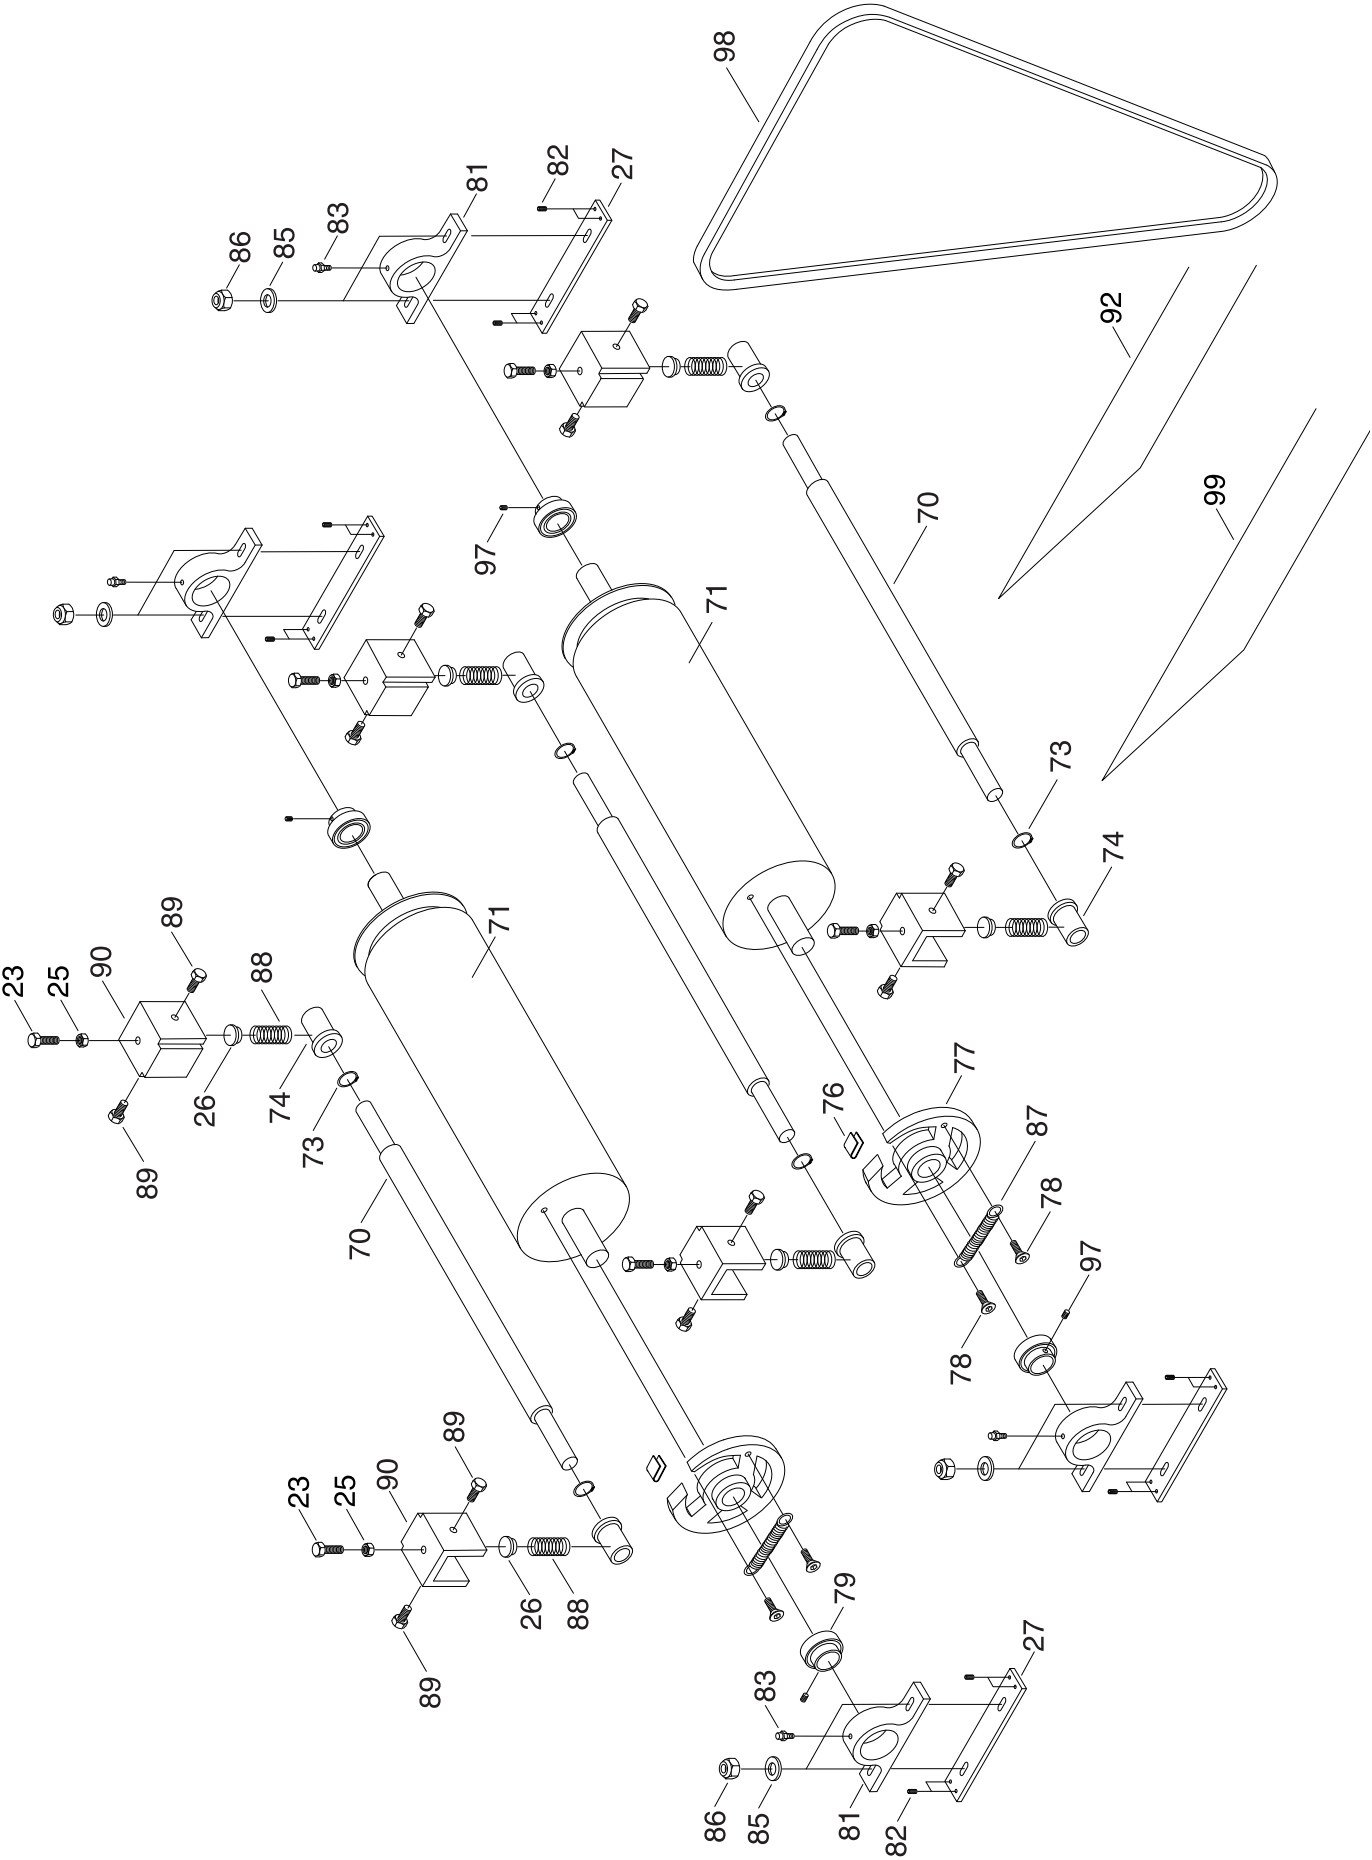

- Base and Frame:** The main frame (1) is assembled with side rails (2) and cross-braces (3, 4). The base (5) is attached to the frame.
- Table Assembly:** The table top (6) is attached to the frame using a table leg (7) and a table support (8). The table top is secured with a table top screw (9).
- Motor and Drive:** The motor (10) is attached to the frame using a motor mount (11) and a motor screw (12). The motor is connected to a power source (13) via a power cord (14).
- Table Elevation Mechanism:** The table elevation is achieved using a table leg (15) and a table support (16). The table leg is attached to the table top (17) and the table support (18) using a table leg screw (19) and a table support screw (20).
- Table Top Assembly:** The table top (21) is attached to the table support (22) using a table top screw (23) and a table support screw (24).
- Table Top Mounting:** The table top is mounted to the table support using a table top screw (25) and a table support screw (26).
- Table Top Mounting:** The table top is mounted to the table support using a table top screw (27) and a table support screw (28).
- Table Top Mounting:** The table top is mounted to the table support using a table top screw (29) and a table support screw (30).

The diagram includes numerous callouts for specific parts and screws, providing a detailed guide for the assembly process.
