Introducing the Grizzly Model T30860 Manual Tube Bender

With the T30860 Manual Tube Bender, you can make accurate and consistent bends in a variety of tubing materials including steel, copper and aluminum, with minimal training.

MACHINE HIGHLIGHTS

- Make bends up to 180° in 1/2" to 2" diameter round or 1" to 2" diameter square tubing.
- The long 41" bending handle with ratcheting action provides maximum leverage and control for easy, consistent bending.
- Features a bend angle indicator, durable all-steel construction, and a floor-mounted stand for stability.
- Seventeen optional dies are available for various sizes of round and square tubing. (Dies sold separately. See grizzly.com for specs and model numbers.)
- Weighs approximately 98 lbs.

The Model T30860 is available for \$395 and is covered by a one-year warranty. For more information call **1-800-523-4777** or visit **www.grizzly.com**.
