

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier:

<i>Product name:</i>	White Fused Alumina (Al ₂ O ₃)
<i>Trade name:</i>	VanOxide Aluminum Oxide
<i>REACH-Registration No.:</i>	01-2119529248-35-0023
<i>CAS name:</i>	Aluminium oxide
<i>CAS number:</i>	1344-28-1
<i>EU name:</i>	Aluminium oxide
<i>EU number:</i>	215-691-6
<i>IUPAC name:</i>	oxo(oxoalumanyloxy)alumane
<i>Substance type:</i>	mono constituent; inorganic substance

1.2 Relevant identified uses of the substance or mixture and uses advised against:

abrasives, refractory and ceramics applications, bonded and coated abrasives, filter and catalyst carriers, glass, fillers, water treatment, industrial application, lubricant, greases, chemical reagents, feedstock
Counterproposal use: none.

1.3 Details of the supplier of the safety data sheet:

<i>Manufacturer:</i>	Vaniman Manufacturing 140 N Brandon Rd Fallbrook, CA 92028
<i>E-mail (competent):</i>	Service@vaniman.com
<i>Company telephone:</i>	(760) 723-1498
<i>Company telefax:</i>	(760) 723-6990
<i>Company e-mail:</i>	Sales@vaniman.com
<i>Company homepage:</i>	Vaniman.com

1.4 Emergency telephone number:

2. Hazards identification:

Emergency Overview

Critical hazards to human and environment None

2.1 Classification of the substance or mixture:

GHS Classification Not classified. No H-phrases.

CLP Classification .
(Regulation (EC) No 1272/2008) Not classified as hazardous.

EC Classification.
(Annex I. Of Directive 67/548/EEC) Not classified. No R-phrases.

2.2 Label Elements

Symbol: None
Signal word: No signal word.

Labelling according to Regulation
(EC) No 1272/2008: None/No signal word

Labelling according to
Directive 67/548/EEC: None/No signal word

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

Precautionary statements:

P 261: Avoid breathing dust.
 P280: Wear eye protection.
 P285: In case of inadequate ventilation wear respiratory protection.
 P305+351+338: IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
 P302+352: IF ON SKIN: Wash with soap and water.

2.3 Other hazards: None

3. Composition/information on ingredients:

3.1 Substances:

CAS-No.: 1344-28-1
 EINECS No.: 215-691-6
 REACH Registration No: 01-2119529248-35-0023
 Purity: 95-100%(w/w) typical: ca. 99.7%

CAS #	EC #	Component	Concentration %	Classification	R- phrase
1344-28-1	215-691-6	Aluminium oxide (non-fibrous)	> 95	---	---

Hazard impurities:

No hazardous impurities.

4. First aid measures:

4.1 Description of first aid measures:

Inhalation: Move to fresh air. Consult physician of necessary.
 Skin contact: Mechanical dry removal.
 Eye contact: In case the material gets into the eye rinse with full water needed keeping the lids open and the eyeball moving. Seek medical advice if mechanical irritation persists.
 Ingestion: Rinse mouth and give plenty of water to drink. Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed:

None

4.3 Indication of any immediate medical attention and special treatment needed:

None

5. Firefighting measures:

5.1 Extinguishing media:

The substance is not inflammable and non-explosive. Fire hazard classification: E.
 Fire extinguishing method of surrounding areas must be considered.
 Unsafe extinguishing media: none.

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

5.2 Special hazards arising from the substance or mixture:

None

5.3 Advice for firefighters:

None

6. Accidental release measures:

6.1 Personal precautions, protective equipment and emergency procedures:

Avoid dust formation. In case of exposure to high level airborne dust wear a personal respirator in compliance with national legislation. See section 8.

6.2 Environmental precautions:

Avoid dispersal of spilled material and runoff. Avoid creating dusty conditions and prevent wind dispersal. Collect material

6.3 Methods and material for containment and cleaning up:

The material can be taken up mechanically and disposed of observing the local regulations.

6.4 Reference to other sections:

See section 2.2 Label elements; 7. Handling and storage; 8. Exposure controls/personal protection; 13. Disposal considerations

7. Handling and storage:

General advice: Handle in accordance with good industrial hygiene and safety practice. Wear suitable personal protective clothing and equipment.

7.1 Precautions for safe handling:

Advice on safe handling:

Avoid dust formation. No special handling advice required.

Precautions against fire and explosion:

No possible danger of fire and dust explosion.

7.2 Conditions for safe storage, including any incompatibilities:

Condition of storage rooms and tanks:

No any special precautions required.

Further information of storage:

No any special precautions required.

7.3 Specific end use(s):

Abrasives, refractory and ceramics applications, bonded and coated abrasives, filter and catalyst carriers, glass, fillers, water treatment, industrial application, lubricant, greases, chemical reagents, feedstock

8. Exposure controls/personal protection:

8.1 Control parameters:

Exposure limit values for White Fused Alumina:

Not applicable

Components with specific control parameters as limit values

Occupational exposure limits (air): generally same as for nuisance dust

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

Hungary

10*/6** mg/m³ (*inhalable dust; ** respirable dust)
25/2000 (IX.30.) EüM-SZCSM regulation for inert dusts

Germany

10*/3** mg/m³ (*inhalable dust; ** respirable dust)

Great Britain

10*/4** mg/m³ (*inhalable dust; ** respirable dust)

United States

OSHA 15 mg/m³ (total dust); 5 mg/m³ TWA (respirable fraction)

Some additional EU countries

10 mg/m³ (include national OEL if this exists)

8.2 Exposure controls:

Occupational Exposure Controls:

Avoid dust formation. Appropriate local exhaust ventilation recommended.

*Personal Protection Equipment
Respiratory protection:*

In case of insufficient ventilation and exposure to high levels of airborne dust, wear suitable respiratory equipment. Recommended filter type: Filter P2 (acc. To DIN3181)

Hand protection:

Wear suitable gloves
Glove material: Textile
Mechanical Harm Category 2,
Protection: Protection level: EN 388 3132
Use: Sieving process, packaging

Eye protection:

Wear safety glasses with side shields (frame goggles).

Skin Protection:

No special protective equipment required.

Hygiene measures:

Do not eat, drink or smoke when handling. Wash hands after handling and before eating.

Environmental exposure controls:

No special exposure controls required.

9. Physical and chemical properties:

9.1 Information on basic physical and chemical properties:

Physical state: solid powder or grains
Color: white
Odor: odorless

9.2 Other information:

Grain size: 0.01 – 100mm
Odor threshold: -
Initial boiling point and boiling range: 2980 °C at 1013 hPa

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

<i>Evaporation rate:</i>	not applicable
<i>Upper/lower flammability or explosive limits:</i>	not applicable
<i>Vapor pressure:</i>	1 hPa at 2158 °C
<i>Vapour density:</i>	not applicable
<i>Solubility(ies):</i>	in water: very low (0.00002g/L at 20 °C)
<i>Auto-ignition temperature:</i>	not applicable
<i>Decomposition temperature:</i>	not applicable
<i>Viscosity:</i>	not applicable
<i>pH-value:</i>	not relevant
<i>Melting point:</i>	approx. 2080 °C
<i>Boiling point:</i>	not relevant
<i>Flash point:</i>	not relevant
<i>Density:</i>	3.99 g/cm ³ (20°C)
<i>Solubility in water:</i>	insoluble
<i>Flammability:</i>	not relevant
<i>Explosive properties:</i>	not relevant
<i>Oxidizing properties:</i>	no
<i>Thermal decomposition:</i>	not applicable
<i>n-Octanol water coefficient:</i>	not applicable
<i>Other physical-chemical properties:</i>	not relevant

10. Stability and reactivity:

<i>General information:</i>	The material is stable under normal conditions of use, storage and handling/transport.
10.1 Reactivity:	The substance is not reactive.
10.2 Chemical stability:	The substance is stable under normal conditions.
10.3 Possibility of hazardous reactions:	No hazardous reactions known.
10.4 Conditions to avoid:	None
10.5 Incompatible materials:	None
10.6 Hazardous decomposition products:	No hazardous decomposition products known

11. Toxicological information:

11.1 Information on toxicological effects:	Oral uptake < 0.1%, nearly insoluble in lung fluids, most absorbed aluminium oxide is rapidly excreted through urine, main deposit in body is in bone structure.	
Acute effects (acute toxicity, irritation and corrosivity):	No acute effects	
Acute toxicity:	LD50 (oral):	> 2000 mg/kg bwt (rats)
	LD50 (dermal):	No effect
	LC50 (inhalation):	> 2,3 mg/l(rats)
Specific symptoms in animal tests:	After swallowing:	None

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

	After skin contact:	None
	After inhalation:	None
Irritation and Corrosive effects:	Irritant effects on skin:	No effects
	Irritant effect on eyes:	No effects
Sensitisation:	After skin contact:	None
	After inhalation:	None
Toxicity after repeated intake (sub acute, sub chronic, chronic):		
<i>Sub acute oral Toxicity:</i>		None, Calculated DNEL 6,2 mg/kg bwt/day
<i>Sub acute inhalation Toxicity:</i>		None, see occupational exposure limits, calculated. DNEL:15,6 mg/m ₃ respirable
<i>Assessment:</i>		
CMR-effects (carcinogenic, mutagenic and reproductive effects)		
<i>Carcinogenicity:</i>		None
<i>Mutagenicity:</i>		None
<i>Reproductive toxicity:</i>		None
<i>Assessment of CMR properties:</i>		Not classified for CMR
Product components not listed under IARC/NTP/ACGIH (ingredient carcinogenicity)		
Practical experience:		
<i>Observations relevant for classification:</i> none		
<i>Other observations:</i> none		

12. Ecological information:

12.1 Toxicity:	Study scientifically unjustified. The substance is highly insoluble in water. The dissolved material ions from the tets substance do not exceed the concentration of metal ions in natural surface waters. As such, it is clear that the Aluminium Oxide/White Fused Alumina mineral is not entering the environment in quality or concentration or under conditions that have or may have an immediate or long-term harmful effect on the environment.
12.2 Persistence and degradability:	
<i>Persistence:</i>	No relevant for inorganic substance
<i>Biological degradability:</i>	Not degradable
12.3 Bioaccumulative potential:	Not applicable.
12.4 Mobility in soil:	Not mobile under normal environmental conditions may be leached from the ground at low pH (< 5.5) or high pH (> 8.5).
12.5 Results of PBT and vPvB assessment:	Not PBT or vPvB substance.
12.6 Other adverse effects:	None
Final assessment	No acute or chronic classification is appropriate for Al metal massive based on non toxic results below the Ecotoxicity Reference Value (ERV) of tests with aluminium metal, oxide

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

and hydroxide at loadings of 100 mg/L at pH 8-8.5 (maximum solubility of Al expected).

All aluminium in soil or the aquatic environment comes from Natural sources. Local sources has an insignificant contribution and impact on environment

13. Disposal considerations:

13.1 Product disposal:

Reuse or recycle when possible. The material can be stored with domestic waste in accordance with the authoritative local regulations. The used packaging should be emptied entirely. Recycling of the used packaging is recommended observing the local regulations.

14. Transport information:

14.1 UN number:

UN numbers are four-digit numbers that identify hazardous substances.

UN number: Non hazardous material.

14.2 UN proper shipping name:

GGVS/ADR classification:

Non hazardous material.

GGVE/RID classification:

Non hazardous material.

Inland waterways:

GGVBisch/ADNR classification:

Non hazardous material.

Maritime transport:

GGVSee/IMDG classification:

Non hazardous material.

Air transport:

ICAO-TI/IATA classification:

Non hazardous material.

14.3 Transport hazard class(es):

Non hazardous material.

14.4 Packing group:

Non hazardous material.

14.5 Environmental hazards:

Non hazardous material.

14.6 Special precautions for user:

Non hazardous material.

14.7 Transport in bulk according to Annex II. of MARPOL73/78 and the IBC Code:

Non hazardous material.

15. Regulatory information

15.1 Safety, health and environmental regulations/legislations specific for the substance or mixture

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100

Further information:

The current labor hygiene and authoritative regulations should be observed.
The presented information is based on the available literature and the experiences of the manufacturer.
The MSDS includes information exclusively in regards of the safety aspects of the relevant material.

Annex - Exposure Scenarios

As a result of the hazard assessment and PBT/vPvB assessment it is found that SUBSTANCE Aluminium Oxide/White Fused Alumina (CAS# 1344-28-1) does not meet the criteria for classification as hazardous (according the Directives 67/548/EEC and 1272/2008/EC) nor is it considered to be a PBT/vBvB. An exposure assessment and the subsequent stop of risk characterization is not required.

Safety Data Sheet

On voluntary basis

Basically White Fused Alumina/Aluminium Oxide is non-hazardous substance. A MSDS is not mandatory required. This is a data sheet provided on voluntary basis, made according to Regulation (EC) No. 1907/2006 (REACH)

Identification of the substance: White Fused Alumina (Al₂O₃) Ctn.: 2818101100
